

Siding Collection

SP 1
Anthracite &
Smoky Quartz

For over 25 years of outstanding service, we have been offering our customers high – quality steel sidings that are **designed and proudly manufactured in Canada.**

Our efforts to continuously seek innovative and state of the art products will provide you with beautiful and rich results that will embellish any project you may desire.

We promise to only serve you the best quality and looks that are sure to add a touch of style and protection to your home. With our **25-year warranty**, you can guarantee that our products will give you a peace of mind for many years to come.

LET YOURSELF BE INSPIRED!

In addition to this, we at Northview Groups firmly believe in reducing our carbon footprint on the planet. As such, we are happy to report that our siding is created from 100% recyclable materials and is eligible to make any project LEED certified.

The appearance and richness of wood WITHOUT THE MAINTENANCE

We understand that taking care of the maintenance of your home can be a time consuming and frustrating process. At Northview Groups, our steel sidings are crafted to retain their original appearance for years without upkeep. Not only will you have more time, but your home will also benefit from the durability and protection of our steel.

Each shade of our Wood Collection offers 6 diverse plank and grain designs emulating the look of real, authentic wood. Our contemporary designs and colours are created to blend perfectly with the surrounding environment to providing a seamless to any home.

1 PAINT RESISTANCY

The unique design of our Textual III and IV paint offers customers a unique presentation that is highly resistant against extreme weather conditions and scratches.

2 CERTIFIED 25 YEAR WARRANTY

Our products and specially-tailored painting process guarantees a lifetime of longevity and robustness. However, we offer our customers a 25-year warranty to provide you the best service possible in case of severe weather conditions.

3 A LUCRATIVE ADDITION TO ANY PROPERTY

With its transferable warranty, Northview Group steel coatings offer an upwards of double to triple value to your property. Significant savings in installation and maintenance costs can help you increase the value of your home to almost 10% of its original value guaranteed.

4 ENVIRONMENTALLY-CONSCIOUS PRODUCTS

Northview Group steel sidings are in line with developing products for the new millennium. Our products are created with a high percentage of recycled materials that are 100% recyclable at the end of their long life. Its sustainable manufacturing produces low levels of toxic fumes that help protect the planet to reduce its carbon footprint in the long run.

8

REASONS TO CHOOSE NORTHVIEW

5 MAINTENANCE AND HASSLE-FREE

Designed to retain its original, beautiful appearance with high durability and resistance, Northview Group steel siding is the best choice for maintenance-free service. Once installed, you will not have to worry about the condition of your project due to the high permanence of the steel.

6 HIGH RESISTANCY AGAINST RUST

Northview Groups pre-painted Galvanized Steel products and Textural pre-paint systems help provide increased resistancy against rust.

7 SUPERIOR PRODUCT

At Northview Groups, we never skip out on quality. That's why product performance and customer satisfaction are our number one priorities!

8 PERFECT FINISH

Carefully crafted with a seamless design, our products cleverly hide any distracting screw or bolt from its appearance. You will benefit from the high-end look of your new project with our products.

SP 240

Smoky Birch / Dark Brown

A dynamic touch!

The smooth configuration of the Corrugated SP 240 makes for a unique addition for any project. Compared to the industrial look of conventional corrugated panels, the lightweight 3/8-inch ripples of the MS 380 makes for an incredibly versatile product. The malleability of its construction allows for a curved installation that is adaptable to many environments.

Its distinct look adds a creative flavor to any architectural project you have in mind. Add dynamism and sinuosity with this siding!

TEXTURAL SYSTEM

2x more resistant to UV rays.
3x more resistant to micro-cracking and
fissures, especially to sharp-angle shapes.

Northview Group's steel profiles are specially crafted with premium grade steel equipped with Textural paint technology.

This European-inspired technology uses polyurethane to remain utterly resistant against poor and harsh environments. Our textural technology is available in a range of gorgeous, opaque colours with a matte surface finish that absorbs reflections to eliminate the appearance of warping. Its surreal colour palette and textures mimics noble materials like wood, zinc and bronze to emulate the look of authentic, natural materials.

HIGH-PERFORMANCE QUALITY EXCLUSIVELY FROM NORTHVIEW GROUPS

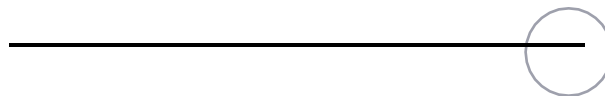

- Resistant to corrosion and colour fading
- Resistant to scratches, wear and tear
- Superior protection against harsh climates
- Amazing film integrity
